PROJECT

- **MINI PROJECT**

  - Project on web scraping.
  - Arduino based programming for led
 - Image processing by python

- **MAJOR PROJECT**

- **DESKTOP ASSISTANT AI**

I have made a small version of Artificial Intelligence, which can perform many small tasks to be told using speech recognition module in Python. I have also used Pyttsx3 module i.e. Python text to speech module that performs task such as searching anything on Wikipedia through user speech input. It is like a small version of google assistant with similar programming outputs.
